Wrap & Stack Machine

1500

Linkage / Front Mounting

- ▶ Unique roller system ensures a smooth & consistent bale rotation
- ▶ Rear or front linkage mounted, also front loader mounting
- ▶ Two independently driven rollers ensure consistent rotation
- ▶ Twin bales can be wrapped in a single pack
- ▶ “Rotate after wrap” feature allows multi positioning of wrapped bales (square bales 0.47m - 1.4m height, maximum 1.5m length)

Dispenser

Ground Support Roller

Parking Stand

Rock & Roll System

Effortless Bale Stack Entry

Twin Arms for High Output
